Dear Madam/Sir

Greetings of the day

2020 has brought lot of changes in the way we look at life and environment, one change that pandemic has taught us is to become self reliant. In this process entrepreneurship development has always played crucial role and " Atma Nirbhar Bharat Abhiyan" announced by Central government made it matter of necessity rather than choice.

NEDC an ISO Certified and registered under MSME with NIC Code for Training & Development is working in the field of Entrepreneurship and skill Development and continuously contributing to the skill development of young budding entrepreneurs, professionals and students. Till date we have empowered more than 10,000 students and almost 300 colleges and universities across India in the field of Entrepreneurship and other specialized and Technical skills. NEDC proudly states tie up with more than 100 colleges for regular Training programs in their campus pan India.

Our main Skill Development programs are:

1. Entrepreneurship Development Workshop Program.
2. Import Export Management Practical up gradation Workshop with legal procedures and Documentation
3. Digital Marketing Program.
4. Data Analytics Workshop Program.
5. Solar Energy Entrepreneurship Program
6. Organic Farming Entrepreneurship Program

The programs are being conducted online as well as offline as per requirement of the organization. In case of online workshop program NEDC will host the meet with minimum 50 participants at a time.

Students /Professionals/ Faculty from any stream can participate, any number of students who have interest and passion for skill development and Entrepreneurship should participate.
