CAREER COUNSELLING AND PLACEMENT CELL

The Training & Placement Cell at our institution is dedicated to providing students with ample employment opportunities and effective training in leading organizations. Our primary goal is to bridge the gap between academic learning and industry requirements, ensuring that students are well-prepared for their professional journeys.

The TPC at our college attracts reputed organizations, including MNCs, for campus recruitment. It aims to identify and enhance students' core competencies through a well-structured and efficient system. Committed to 'Industry-Institute Interaction,' the Cell organizes technical talks, seminars, and industrial visits, allowing students to engage with industry professionals. It also integrates industrial challenges into student projects and seeks industry feedback on curriculum design. On-campus drives include pre-placement presentations and a recruitment process managed by the company, with full logistical support provided. For off-campus recruitment, the Cell sends updated resumes to companies, which can then shortlist and interview candidates at their offices. After the process, companies must inform the Placement Cell of the selected candidates.
